**PROCEDURE ADOPTED BY THE EXECUTIVE COMMITTEE FOR QUALITY ASSURANCE TO ESTIMATE THE CONTRIBUTION OF EACH DEPARTEMENT**

- Analysis of the population of each department (31 December 2021) and of the SSDs of each researcher (professors and researchers on permanent and fixed-term contracts);
- identification by the Executive Committee for quality assurance of the SSDs that characterise each subject (on a scale from 0 to 10);
- identification of each department's level of contribution to each subject according to this scheme ::

**PREVALENT** accounts for at least 50% of the scores related to the university's research staff belonging to the SSDs associated with the subject;  
**SIGNIFICANT BUT NOT PREVALENT** accounts for at least 50% of the scores related to the university's research staff belonging to the SSDs associated with the subject;  
**MINOR BUT PERTINENT** accounts for less than 20% of the scores related to the university's research staff belonging to the SSDs associated with the subject.  
 No mention is given to subjects unrelated to at least 4 research staff. And, the subjects in which the university has not been.
